# MUSTN'T RECORDEARTHQUAKES

WEATHER BUREAU TO QUIT KEEPING TRACK OF THEM.

Comptroller of the Treasury Decides That He Cannot Find Any Authority in Law for the Bureau to Continue the Work Bureau to Appeal to Congress

WASHINGTON, Aug. 25. The seismograph in the cellar of the Weather Bureau vibrated in lively fashion to-day when rendered a decision that Chief Willis Moore and his scientists must quit keeping track of earthquakes. Mr. Tracewell passed on the question at the request of Secretary of Agriculture Wilson, and deof a shock to Prof. Willis Moore, for his question being raised as to its right to commission in New York city.

In submitting the question to the Comptroller, Secretary Wilson said that when placed under the Department of Agriculture all the civilian duties were transduties of the Signal Corps from 1875, he said, had been to keep track of seismological affairs, and the Weather Bureau duties.

Comptroller Tracewell says he cannot

sixteen inch gun in the army, now at scream at a spot on the Mid-Sandy Hook, N. J., as a part of the description of the Panama Canal. The official tests showed that the scream was followed almost instantly by the report of a gun.

# TAGGING WILD GAME.

onservation Commission Enforcing the Provisions of the Bayne Law.

ALBANY, Aug. 25. The State Conservation Commission announces the appointment of Eugene McMahon and Charles J. Marasco of New York and William L. Mooney of Brooklyn as special importation agents, with duties under the Bayne law, at a salary of \$1,500 each and expenses. The commission is making progress under the provisions of the Bayne law in handling and tagging the wild game under bond in this State, and Comptroller of the Treasury Tracewell is getting ready to tag the game now being imported into the State so that it

may be sold at the opening of the season The Bayne bill prohibits the sale of wild game in this State, but it provides that any game now in this State under cided that there were no funds for the bond may be sold if first tagged by the purpose. The decision was very much commission. There are approximately 200,000 birds now in cold storage and bureau has been making seismological the work of tagging the game is now investigations for years without any being done under the supervision of the are also birds to be tagged in Albany Syracuse and Buffalo.

The commission is informed by one the Weather Bureau was separated from of the largest importers of game in the the Signal Corps of the army in 1890 and United States that he expects to buy and bring here at least 1,000,000 birds, for which a fee of 5 cents is to be paid for ferred to the Department. One of the each bird so tagged. This will make revenue of \$50,000 to the State from this one dealer alone.

Under the old law any dealer, hote has since 1890 made this work part of its keeper or restaurant keeper desiring to sell woodcock, grouse and quail coming from without the State had to file a find any authority in law for the bureau bond before it could be lawfully sold. contends, is additional to and not an of the bonds, but each bird has to have incident of the work of the weather men. a tag affixed to the leg before it can be The contention of the Weather Bureau is sold or possessed for sale. The commisthat all foreign countries now recognize seismology as being meteorological in scope. Prof. Moore thinks Mr. Tracewell is all wrong, but will obey his mandate the game of the State. The pot hunter will no longer have a market for his birds. just the same.
"No matter what the Comptroller has as it is expected that the foreign game allowed to be sold will be so much cheaper that no dealer will find it profitable to handle the domestic game, even in an the success of the Republican party wagon. He told the police and later in underhanded manner.

### GAS KILLS BROOKLYN LAWYER. Death of Charles H. Phillips Believed to affairs. Have Been Accidental.

Charles H. Phillips, a Brooklyn lawyer with offices at 5 Court Square, was found dead in his apartment in the Jefferson to do but to abide by his rulings and go before Congress with the request that it explicitly confer the authority that Mr. Tracewell says is lacking. This will be visit. Death was caused by inhaling gas. The police think that it was accidental

Mrs. Phillips had been spending twenty despite the declarations of a former cubployee of this bureau. When the question four hours or so at the home of her protect,
was raised as to the right of the bureau to expend the appropriation for the purpose for which it was intended we stopped right there and asked the Comptroller entered the Phillips apartment at about the policy of the propriation of the protect of the prot or his opinion.

# SHORT AND UGLY WORDS FLY.

the Rev. Mr. Gallaway's Charges. PATERSON, N. J., Aug. 25.-Samuel ciety, was a witness this afternoon at a "I have had no personal candidate at meeting of the police and fire commission

was telling an untruth Haines passed the word "liar" This brought Mayor McBride to his feet, and a personal en-counter was averted by the interference of others. Haines is advocating the commission plan of government and in doing so has been attacking the admin-istration.

istration.

Mayor McBride is leading the fight

# BOLT KILLS WITHOUT STRIKING.

Woman Afraid of Lightning Fell to the Floor and Died After Vivid Flash. ATLANTIC HIGHLANDS, N. J., Aug. 25 Awakened this morning by the thunde storm. Mrs. Daniel Ferguson arose to pull down the open window. As she reached one of the windows she fell to the floor with a scream. Her husband hastened to her side and found her unconscious. He telephoned for Dr. B. E. Failing, but before the physician arrived Mrs. Fergu-

# Shack and Its Occupant Burned

MIDDLETOWN, N. Y., Aug. 25 .- A small shack which had been occupied for some time by Joseph Jackson opposite Crags moor Inn at Cragsmoor, Ulster county mains were found in the ruins. He was about 50 years old and had been employed about Cragsmoor as a laborer. He had lived alone in the shack.

# The Sunday Sun

will help to keep one abreast of the times. To-morrow it will contain much to entertain and amuse the reader. In addition to its many regular features, well known to Sun-DAY SUN readers, there will be an interesting sketch of

# Underwood of Alabama

the man to whom all eves have turned in the session of Congress just brought to a close. For sixteen years the new Democratic leader has tended strictly to Congressional business and not even Mr. Bryan has been able to get him excited. There are many illuminating anecdotes of the Ala-

### The New Air Scouts,

the latest types of craft designed to watch from the air fighting on land and sea, are the subject of another article. They are about to figure for the first time in the great German war manœuvres. The story also tells what the world's great gunmakers are doing toward rendering the airship impotent in warfare. In still another article

### Open Air Players

here and abroad are described and compared, to show that America has not yet popularized this form of dramatic production to the extent the Old World has. You can learn who the present

### American Women Aviators

are. Three women only have qualified so far and this tells how they came to do it. Also you find that these three women birds have never had a smashup, something few aviators can boast of. A former music teacher describes in an interview her experiences at

# Farming in Montana

She tells how with a slender capital she joined the ranks of the modern pioneers and homeseekers and became well off. For SUNDAY SUN readers there is a new adventure of Detective Abe Cronkite. Also there is

# The Woman's Page.

which will contain a forecast of the frocks of autumn. For those who seek to obliterate ugly spots and restore lost charms there is an interview with an actress, who tells of

# Beauty Regained in a Week

It contains pointers on how to doff a coat of summer tan and freckles and be in shape for fall beauty contests.

# Geats' Milk for Cows'

will tell you what experts are doing in trying to get American farmers to breed milch goats, the poor man's cow. They predict that goat's milk will soon become a common beverage.

If you are good at making over things the

# Girl With the Fatal Knack

will interest you because it reveals that the ability to make over old clothes has its drawbacks. There are sketches to help one understand this. There is something more about forgeries in china, and you can learn the

# Views of a Mexican Girl

She thinks the women here are cold and the men too, only they don't stare quite so much as some.

There is the hunting page to entertain with stories of the rod and gun; also you get
